### Algorithm (Pseudo code)

#### "Budgeting monthly allowance as a student"

**Step 1:** INPUT: Allowance

**Step 2:** Know the things that you will buy or pay

**Step 3:** Is it necessary? If yes, then write in on your budget list

Else, disregard it and think of other necessary things

**Step 4:** OUTPUT: Finalize your list and assign designated amount of money needed for the following on you budget list.

### Algorithm (Flowchart)
